We Cane Brand Guidelines

Isolation area

The isolation area corresponds to the height of the text in the logo. No other typography, text, graphic, or photographic element may overlap the logo in any way.

Backgrounds

Avoid using background colors with the same contrast level as the logo. Instead, use white or tinted whites for the background.

Minimum size

The primary logo must appear no smaller than 1 inch wide or 2 inches high. For print, this is equivalent to 300 pixels at 100 DPI, and for digital use, this is equivalent to 144 pixels at 72 DPI.

We Cane Brand Guidelines

Logo on photographs

Use the one-color logo variant on photographs, placing it on less busy areas to maintain legibility. The white logo variant can be used on dark backgrounds in photos, as long as legibility is preserved.

Secondary Logo

Vertical

Use the stacked and vertical logo variation in spaces where a taller, narrower logo fits better, such as on mobile screens, banners, or vertical signage.

Horizontal

Use the horizontal logo variation in spaces where a wider layout is more appropriate, such as on website headers, letterheads, or horizontal banners
